

Now Accepting Applications! Full-Year Undergraduate Research in Chemistry

Do you...

Want to do research?

Intend to participate in Independent Study next year? Want to pursue Graduation with Distinction?

Then start this Summer!

Join Research Projects in:

Chemical Biology, Nanoscience and Materials, Inorganic and Organic Synthesis, Theory and Modeling, and many others...

- State-of-the-Art Research Projects
- Full-Time, Paid Summer Positions
- Continuation into Independent Study
- Support for Gordon Research Fellowships and Awards
