

ALVIN L. CRUMBLISS

Professor of Chemistry
Duke University

PUBLICATIONS SINCE 1994

1. "The Use of Inorganic Materials to Control or Maintain Immobilized Enzyme Activity", A. L. Crumbliss, J. Stonehuerner, R. W. Henkens, J. P. O'Daly, and J. Zhao, *New J. Chem.*, **18**, 327 (1994).
2. "Electrospray Mass Spectrometry Study of 1:1 Ferric Dihydroxamates" M. T. Caudle, R.D. Stevens, and A. L. Crumbliss, *Inorg. Chem.*, **33**, 843 (1994).
3. "The Formation of Plasma Polymer Thin Films Containing Reactive Metal Chelate Sites", J. M. Skelly, N.C. Morosoff, V. T. Stannett, and A. L. Crumbliss, *Chem. Mater.*, **6**, 227 (1994).
4. "DNA Strand Breaks Following *In Vitro* Exposure to Asbestos Increase With Surface Complexed [Fe³⁺]", A. J. Ghio, T. P. Kennedy, J. G. Stonehuerner, A. L. Crumbliss, and J. R. Hoidal, *Arch. Biochem. Biophys.*, **311**, 13 (1994).
5. "Synthesis and Structural Analysis of New Iron(III) Polyhydroxamino Complexes with Potential Application To Nuclear Magnetic Resonance Imaging. 2. Studies on Complexes Formed *In Situ* From Hydroxamic Acids - Relaxivity of the Complex Iron(III)-N,N'-bis-(3'-acetylhydroxyaminopropyl)-4-(4'-aminobutyloxy)-2,6-pyridinedicarboxamide", F. Chaubet, K. Nguyen Van Duong, J. Courtieu, A. Gaudemer, A. Gref, A. L. Crumbliss, and M. T. Caudle, *Can. J. Chem.*, **72**, 2361 (1994).
6. "Hydrolysis of Ferrioxamine B in Aqueous Micellar Solution", I. Batinic-Haberle, I. Spasojevic, and A. L. Crumbliss, *Inorg. Chem.*, **33**, 3151 (1994).
7. "Dissociation Kinetics of N-methylacetohydroxamatoiron(III) Complexes: A Model for Probing Electronic and Structural Effects in the Dissociation of Siderophore Complexes", M. T. Caudle and A. L. Crumbliss, *Inorg. Chem.*, **33**, 4077 (1994).
8. "Supramolecular Assembly Formation of Ferrioxamine B and its Al(III), Ga(III), and In(III) Analogues With Dicyclohexano-18-Crown-6 in Chloroform", I. Spasojevic, I. Batinic-Haberle, P. L. Choo, and A. L. Crumbliss, *J. Amer. Chem. Soc.*, **116**, 5714 (1994).
9. "A Monomer-to-Dimer Shift in a Series of 1:1 Ferric Dihydroxamates Probed by Electrospray Mass Spectrometry", M. T. Caudle, R.D. Stevens, and A. L. Crumbliss, *Inorg. Chem.*, **33**, 6111 (1994).
10. "Mechanistic Studies on the Dissociation of Mono- and Bimetallic 1:1 Ferric Dihydroxamate Complexes: Probing Structural Effects in Siderophore Dissociation Reactions", M. T. Caudle, L. P. Cogswell III, and A. L. Crumbliss, *Inorg. Chem.*, **33**, 4759 (1994).
11. "Phagocyte-Generated Superoxide Reduces Fe³⁺ to Displace It from the Surface of Asbestos", A. J. Ghio, J. Stonehuerner, M. P. Steel, and A. L. Crumbliss, *Arch. Biochem. Biophys.*, **315**, 219 (1994).
12. "A Spectroelectrochemical Method for Evaluating Factors Which Regulate the Redox Potential of Hemoglobins", K. M. Faulkner, C. Bonaventura and A. L. Crumbliss, *Inorg. Chim. Acta*, **226**, 187 (1994).
13. "A Spectroelectrochemical Method for Differentiation of Steric and Electronic Effects in Hemoglobins and Myoglobins", K. M. Faulkner, C. Bonaventura and A. L. Crumbliss, *J. Biological Chem.*, **270**, 13604 (1995).
14. "The Influence of the Anion on the Stability of Second-Sphere Coordination of Ferrioxamine B with Dicyclohexano-18-crown-6", I. Batinic-Haberle and L. Crumbliss, *Inorg. Chem.*, **34**, 928 (1995).
15. "H₂O₂ Chemically Reduces Fe³⁺ Associated With Fibrous Silicates to Generate O₂", A. J. Ghio, D. E. Taylor, J. G. Stonehuerner, A. L. Crumbliss, and C.A. Piantadosi, *Am. J. Respir. Crit. Care Med.*, **151**, A648 (1995).
16. "Stereochemical Factors Affecting Second-Sphere Coordination of Ferrioxamine B with *cis-syn-cis* and *cis-anti-cis* Isomers of Dicyclohexano-18-crown-6 in Chloroform and a Comparison with Alkali Metal and Ammonium Cations" I. Batinic-Haberle, I. Spasojevic, R. A. Bartsch, and A. L. Crumbliss, *J. Chem. Soc., Dalton Transactions*, 2503 (1995).
17. "Second Coordination Shell Complexation and Liquid Membrane Transport of Iron-Siderophore and Model Siderophore Complexes" A. L. Crumbliss, I. Batinic-Haberle, C. Caldwell, R. Dunkel, D. E. Hammels, and I. Spasojevic, *J. Inorg. Biochem.*, **59**, 114 (1995).
18. "Fixed Site Facilitated Transport in Cobalt Chelate Containing Plasma Polymers" N. C. Morosoff, Y. Choe, N. E. Barr, V. T. Stannett, J. M. Skelly, and A. L. Crumbliss, *Proceedings of the 12th International Symposium on Plasma Chemistry*, Vol 1, p. 63 (1995).
19. "Dihydroxamic Acid Complexes of Iron(III): Ligand pK_a and Coordinated Water Hydrolysis Constants" M. T. Caudle, C. D. Caldwell, and A. L. Crumbliss, *Inorg. Chim. Acta*, **240**, 519 (1995).
20. "Electrochemical Behavior of Polyphosphazene Polymers With Pendant Hydroxymethylferrocenyl Groups in Solution and Films", D. Kraiter, P. Wisian-Neilson and A. L. Crumbliss, in *Proceedings of the Second*

International Symposium on Electroorganic Synthesis (Kurashiki, Japan, September, 1994), Kodansha, Ltd, Tokyo and VCH Verlag G., Weinheim, 1995.

21. "Detection Thresholds of Potassium Salts Are Related to the Molar Conductivity of the Anion" S. S. Schiffman, M. P. Manning, Z. S. Warwick and A. L. Crumbliss, *Brain Res. Bull.*, **37**, 623 (1995).
22. "A Xanthine Oxidase/Colloidal Gold Enzyme Electrode for Amperometric Biosensor Applications" J. Zhao, J. Stoneheurner, J. P. O'Daly, R. W. Henkens, and A. L. Crumbliss, *Biosensors and Bioelectronics*, **11**, 493 (1996).
23. "Second-sphere Coordination of Ferrioxamine B and the Association of Deferriferrioxamine B, $\text{CH}_3(\text{CH}_2)_4\text{NH}_3^+$, NH_4^+ , K^+ and Mg^{2+} with Synthetic Crown Ethers and the Natural Ionophores Valinomycin and Nonactin in Chloroform" I. Batinic-Haberle, I. Spasojevic and A. L. Crumbliss, *Inorg. Chem.*, **35**, 2352 (1996).
24. "Molecular Recognition of Stable Metal Complexes Through Second-Sphere Coordination By Macrocycles" A. L. Crumbliss, I Batinic-Haberle, and I. Spasojevic, *Pure & Appl. Chem*, **68**, 1225 (1996).
25. "Mediator-Free Amperometric Determination of Toxic Substances Based on Their Inhibition of Immobilized Horseradish Peroxidase" J. Zhao, R. W. Henkens and A. L. Crumbliss, *Biotech. Progr.*, **12**, 703 (1996).
26. "Solvent Effect on Second-Sphere Coordination of Ferrioxamine B With Substituted 18-Crown-6 and 30-Crown-10 Crown Ethers in Dichloromethane as Compared to Chloroform" I. Batinic-Haberle, I. Spasojevic and A. L. Crumbliss, *Inorg. Chim. Acta*, **260**, 35 (1997).
27. "Hypothesis: Iron Chelation Plays a Vital Role in Neutrophilic Inflammation" A. J. Ghio, C. A. Piantadosi and A. L. Crumbliss, *BioMetals*, **10**, 135 (1997).
28. "The Coordination Chemistry of Siderophores: Thermodynamics and Kinetics of Iron Chelation and Release" A.-M. Albrecht-Gary and A. L. Crumbliss, in "Iron Transport and Storage in Microorganisms, Plants and Animals", Vol. 35 of *Metal Ions in Biological Systems*, A. Sigel and H. Sigel, eds., M. Dekker, Inc., New York, 1998, pp. 239-327.
29. "A Determination of the Reduction Potentials for Diferric and G and N-lobe Monoferric Transferrins at Endosomal pH (5.8)" D. C. Kraiter, O Zak, P. Aisen, and A. L. Crumbliss, *Inorg.Chem.*, **37**, 964 (1998).
30. "Conformational Fluctuations in Deoxy Hemoglobin Revealed as a Major Contributor to Anionic Modulation of Function Through Studies of the Oxygenation and Oxidation of Hemoglobin A₀ and Hemoglobin Deer Lodge B2(NA2)His → Arg" C. Bonaventura, S. Tesh, K. M. Faulkner, D. Kraiter, and A. L. Crumbliss. *Biochem.*, **37**, 496 (1998).
31. "Lariat Ether Carboxylic Acids as Ionizable Hosts in the Second Coordination Sphere of the Siderophore Ferrioxamine B in Chloroform" I. Batinic-Haberle, I. Spasojevic, Y. Jang, R. A. Bartsch, and A. L. Crumbliss, *Inorg. Chem.*, **37**, 1438 (1998).
32. "The Release of Iron from Different Asbestos Structures by Hydrogen Peroxide with Concomitant O₂ Generation" A. J. Ghio, D. E. Taylor, J. G. Stonehurner, C. A. Piantadosi, and A. L. Crumbliss, *BioMetals*, **11**, 41 (1998).
33. "Molecular Recognition of Ferrioxamine B by Host-Guest Complex Formation with Lasalocid A in Chloroform" C. D. Caldwell and A. L. Crumbliss, *Inorg. Chem.*, **37**, 1906, (1998).
34. "Bulk Liquid Membrane Transport of Ferrioxamine B by Neutral and Ionizable Carriers" I. Spasojevic' and A. L. Crumbliss, *J. Chem. Soc., Dalton*, 4021 (1998).
35. "Electrochemical Behavior of the Fe(III) Complexes of the Cyclic Hydroxamate Siderophores Alcaligin and Desferrioxamine E" I. Spasojevic', S. K. Armstrong, T. J. Brickman, and A. L. Crumbliss, *Inorg. Chem.*, **38**, 449 (1999).
36. "Internal Electron Transfer between Hemes and Cu(II) Bound at Cysteine β93 Promotes Methemoglobin Reduction by Carbon Monoxide" C. Bonaventura, G. Godette, S. Tesh, D. E. Holm, J. Bonaventura, A. L. Crumbliss, L. L. Pearce and J. Peterson, *J. Biol. Chem.*, **274**, 5499 (1999).
37. "Spectroelectrochemistry of Heme Proteins: Effects of Active-Site Heterogeneity on Nernst Plots" C. H. Taboy, C. Bonaventura, and A. L. Crumbliss *Bioelectrochemistry and Bioenergetics.*, **48**, 79 (1999).
38. "pH Induced Active ("Uphill") Liquid Membrane Transport of Ferrioxamine B by the Ionizable Ionophore Lasalocid" I. Spasojevic' and A. L. Crumbliss, *Inorg. Chem.*, **38**, 3248 (1999).
39. "The Relationship Between Redox Potentials, Proton Dissociation Constants of Pyrrolic Nitrogen and *in Vivo* and *in Vitro* Superoxide Dismutase Activities of Manganese(III) and Iron(III) Cationic and Anionic Porphyrins" I. Batinic'-Haberle, I. Spasojevic', P. Hambright, L. Benov, A. L. Crumbliss and I. Fridovich, *Inorg. Chem.*, **38**, 4011 (1999).
40. "Siderophore Mediated Microbial Iron Bioavailability: A Paradigm for Specific Metal Ion Transport" A.-M. Albrecht-Gary and A. L. Crumbliss, in *Scientific Bridges for 2000 and Beyond*, Institut de France, Académie des Sciences, Editions TEC & DOC, Paris, 1999, p.73.

41. "Microcalorimetric Determination of Thermodynamic Parameters for Ionophore-Siderophore Host-Guest Complex Formation" S. M. Trzaska, E. J. Toone, and A. L. Crumbliss, *Inorg. Chem.*, **39**, 1071 (2000).
42. "Concentration-Dependent Effects of Anions on the Anaerobic Oxidation of Hemoglobin and Myoglobin" by C. H. Taboy, K. M. Faulkner, D. Kraiter, Celia Bonaventura, and A. L. Crumbliss, *J. Biol. Chem.*, **275**, 39048 (2000).
43. "Treatment of Iron Deficiency Anemia: Are Monomeric Iron Compounds Suitable for Parenteral Administration?" A. Gupta and A. L. Crumbliss, *J. Lab. & Clin. Med.*, **136**, 371 (2000).
44. "Multiple Path Dissociation Mechanism for Mono- and Di-Nuclear Tris(hydroxamato)iron(III) Complexes with Di-Hydroxamic Acid Ligands in Aqueous Solution" H. Boukhalfa and A. L. Crumbliss, *Inorg. Chem.*, **39**, 4318 (2000).
45. "Kinetics and Mechanism of Iron(III) Dissociation from the Dihydroxamate Siderophores Alcaligin and Rhodotorulic Acid" H. Boukhalfa, T. J. Brickman, S. K. Armstrong, and A. L. Crumbliss *Inorg. Chem.*, **39**, 5591 (2000).
46. "Aqueous Solution Speciation of Fe(III) Complexes with Di-Hydroxamate Siderophores Alcaligin and Rhodotorulic Acid and Synthetic Analogues Using Electrospray Ionization Mass Spectrometry (ESI-MS)" I. Spasojević, H. Boukhalfa, R. D. Stevens, and A. L. Crumbliss, *Inorg. Chem.*, **40**, 49 (2001).
47. "Fe³⁺ Coordination and Redox Properties of a Bacterial Transferrin" C. H. Taboy, K. G. Vaughan, T. A. Mietzner, P. Aisen and A. L. Crumbliss, *J. Biol. Chem.*, **276**, 2719 (2001).
48. "Enhancement of the ¹H and ³¹P NMR Resonances of Methylphosphite and Methylphosphate Anions by Selected Metal Complexes" J. S. Summers, C. G. Hoogstraten, R. D. Britt, K. Base, B. R. Shaw, A. A. Riberio, and A. L. Crumbliss, *Inorg. Chem.* **40**, 6547 (2001).
49. "The Use of SDS Micelles to Stabilize a Ternary Intermediate in the Reaction of Ferrioxamine B and 1,10-Phenanthroline" E. G. Olmstead, Jr., P. L. Choo, S. W. Harman and A. L. Crumbliss, *Inorg. Chem.*, **40**, 5420 (2001).
50. "Kinetics and Mechanism of a Catalytic Chloride Ion Effect on the Dissociation of Model Siderophore Hydroxamate-Fe(III) Complexes" H. Boukhalfa and A. L. Crumbliss, *Inorg. Chem.*, **40**, 4183 (2001).
51. "Crystal Structure of Ferrioxamine B: A Comparative Analysis and Implications for Molecular Recognition" S. Dhungana, P. S. White, and A. L. Crumbliss, *J. Biol. Inorg. Chem.*, **6**, 810 (2001).
52. "Optimization of the Lariat Ether Carboxylic Acid Host Structure for a Ferrioxamine B Guest: Demonstration of a Second Coordination Shell Chelate Effect" S. M. Trzaska, M. Kim, R. A. Bartsch and A. L. Crumbliss, *Inorg. Chem.*, **40**, 5823 (2001).
53. "Synthesis, Ligand pK_a and Fe(III) Complexation Constants for a Series of Bipodal Dihydroxamic Acids" M. K. Nguyen-van-Duong, V. Guillot, L. Nicolas, A. Gaudemer, L. Lowry, I. Spasojević and A. L. Crumbliss, *Inorg. Chem.*, **40**, 5948 (2001).
54. "Fe(III) Coordination Properties of Two New Saccharide Based Enterobactin Analogs: Methyl 2,3,4-tris-O-{N-[2,3-di(hydroxy)benzoyl-glycyl]-aminopropyl}-α-D-glucopyranosid and Methyl 2,3,4-tris-O-{N-[2,3-di(hydroxy)-benzoyl]-aminopropyl}-α-D-glucopyranosid" S. Dhungana, S. Heggemann, L. Heinisch, U. Möllmann, H. Boukhalfa, and A. L. Crumbliss, *Inorg. Chem.*, **40**, 7079 (2001).
55. "Anaerobic Oxidations of Myoglobin and Hemoglobin Using Spectroelectrochemistry" C. H. Taboy, C. Bonaventura and A. L. Crumbliss, *Methods in Enzymology – Redox Cell Biology & Genetics*, C. K. Sen and L. Packer, Volume Eds., J. N. Abelson and M I. Simon, Eds.-In-Chief, Academic Press, NY, p. 187, 2002. (invited chapter).
56. "Heme Redox Properties of S-Nitrosated Hemoglobin A₀ and Hemoglobin S: Implications for Interactions of Nitric Oxide with Normal and Sick Red Blood Cells" C. Bonaventura, C. H. Taboy, P. S. Low, R. D. Stevens, C. Lafon, and A. L. Crumbliss, *J. Biol. Chem.*, **277**, 14557 (2002).
57. "Thermodynamics, Kinetics and Mechanism of the Stepwise Dissociation and Formation of tris(L-lysinehydroxamato)iron(III) in Aqueous Acid" J. I. Wirgau, I. Spasojević, H. Boukhalfa, I. Batinia-Haberle, and A. L. Crumbliss, *Inorg. Chem.*, **41**, 1464 (2002).
58. "Chemical Aspects of Siderophore Mediated Iron Transport" H. Boukhalfa and A. L. Crumbliss, *BioMetals*, **15**, 325 (2002). (invited review)
59. "Fe(III) Coordination Properties of a New Saccharide Based Exocyclic Trihydroxamate Analogue of Ferrichrome" S. Dhungana, S. Heggemann, P. Gebhardt, U. Moellmann, and A. L. Crumbliss, *Inorg. Chem.*, submitted for publication.
